Dependencies

bThreads.js src

```
1  import types from './actions/types'
2
3  export default [
4    function* whenDeleteIsClickedDeleteTodo() {
5      while (true) {
6        yield {
7          wait: ['DELETE_CLICKED']
8        }
9        yield {
10         request: ['DELETE_TODO'],
11         payload: this.lastPayload
12       }
13     }
14   }
15 ]
16
```
